

DECCAN CHAMBER OF COMMERCE INDUSTRIES & AGRICULTURE, PUNE

DECEMBER 2023 - Issue 10

"DCCIA" Pune is founded on seven basic pillars. These pillars enshrine principles based on universal tenets that have helped man and nature to live in harmony. When practiced they have enabled Productivity, Peace and Prosperity and have prevented disintegration as well as destruction. The 'pillars' are the fundamental life forces with timeless validity. We are proud to state that the principles so enshrined have been implemented through various activities of "DCCIA" Pune. At "DCCIA" Pune integrated action is thus the focal word.

Chairman

RATHIN SINHA
Chairman, "DCCIA"

FROM THE CHAIRMAN'S DESK,

Dear Members,

I have great pleasure in putting in your hands the Annual Magazine of DCCIA, 'SPARSH' for the year 2023. It has always been the endeavor of DCCIA to support our member Industries by removing the many roadblocks they face in running their day to day operations. We also actively seek to promote and publicize the business of our member industries by being 'Vocal for Local'.

Towards this end we organize media events and other activities which highlight and disseminate information about our member industries. This issue of 'SPARSH' covers some of those activities.

We have now fully come out from the threat of Covid and a surge in industrial activity can be seen. We hope the trend continues and industries are able to grab the many opportunities that have been thrown up.

Best Wishes for a fulfilling year ahead,

RATHIN SINHA
Chairman (DCCIA, Pune)

HP SRIVASTAVA
Vice Chairman, "DCCIA"

FROM THE VICE CHAIRMAN'S DESK,

Dear Members,

As the current festive season is reaching in its final stage and the year 2023 is preparing to say a good bye, I am delighted to place in your hands a new issue of our annual magazine “Sparsh”.

On the back of strong private demand and consumption which has been evident, we can now say that Corona is behind us. The official gross domestic product (GDP) growth projection by most independent agencies for the current financial year (FY24) is at around 6.5%.. This would once again make India one of the world's fastest growing economy. There is credible data to show a boom in demand. Goods and Services Tax collection for October 2023 was the second-highest ever and most car makers saw record sales in the same month. Infrastructure spending by states and the Centre is at an all-time high.

We are only few steps away from becoming the third largest economy of the world. However, this will be only a milestone in our pursuit of becoming a fully developed country before we celebrate our 100th year of independence. Every sector of economy and we all as individuals have to do our best to realise this dream and regain our past glory.

Wish you and & family “**A very happy & prosperous new year 2024**”

With best regards,

HP SRIVASTAVA
Vice Chairman (DCCIA, Pune)

DCCIA: One of the most proactive and forward-looking Chambers in the country

Maharashtra is home to one of the fastest-growing industries in India and has maintained its leading position in the country's industrial sector over the last few decades. The state boasts the largest number of special export promotion zones, and has emerged as a key hub for IT and ITeS, electronics, and captive business outsourcing industries. Besides, it has a large base of skilled and industrial labor, making it an ideal destination for knowledge-based and manufacturing sectors. Maharashtra's infrastructure sector has evolved significantly over the last decade, with a substantial increase in the number of industrial clusters and Public Private Partnership (PPP) projects.

Established in 1994, the Deccan Chamber of Commerce, Industries & Agriculture, Pune is one of the prime Chambers in the country, and has an illustrious history of over 28 years. The Chamber has played a significant role in supporting the development of industries in Pune and serves as an effective vehicle of communication between the regulatory bodies, the corporate, and the society. It regularly collaborates with other industry associations and thus increases its reach to the decision-makers beyond the boundaries of Pune. The Chamber also supports a large base of Micro Small and Medium enterprise members and contributes effectively towards the overall development of its member companies by addressing core issues and remaining responsive to the needs of the business. Since its inception, DCCIA has evolved into an institution keeping pace with the

time by adapting itself to contemporary trends, while continuing on the path of its proud legacy towards nation-building and simultaneously fulfilling its responsibility towards the welfare and well-being of society. The Chamber is now a cradle for nurturing young talents and has become an embodiment of youth enterprise, positivism, proactive thought leadership, and movement for entrepreneurship. DCCIA also concentrates on promoting good governance and ethical conduct in business and public life towards the greater good of society, encompassing the promotion of skills training, arts, and culture, and ensuring equitable and balanced industrial growth. The year-round activities of dialogues and discussions with eminent business, political, societal and government leaders on a wide range of issues to create an environment for sustainable economic and social development is a uniquely enriching and relationship-building experience. DCCIA endeavors to be the principal Chamber committed to the promotion of industrial, economic, business, and commercial activities between industries in Maharashtra and the rest of India. Touted as the most active Chamber of Commerce in the state of Maharashtra, it has 180+ members in and around the industrial belt of Pune and has signed more than 15 with other reputed Chamber/organizations in India and overseas. It has earned a creditable record of good service for member units, surrounding localities and workers alike. Its membership includes some of the most prominent and major industrial groups in India. The Chamber represents large multinational industries at one end to young entrepreneurs starting an SSI unit in the region at the other end and provides an opportune platform for them to interact. DCCIA plays a pivotal role in supplementing and augmenting the efforts of the government

for the economic development of the state and the advancement of its people. DCCIA's forte is its ability to anticipate the needs of the future, respond to challenges, and prepare the stakeholders in the economy to benefit from these changes and opportunities. DCCIA is regarded as one of the most active Chamber of Commerce in the state of Maharashtra, giving personalized attention to the problems of every member industry. The Chamber strongly believes that by creating an eco-system wherein every member holds each other's hand, enormous strength is generated for everyone. It is in this regard, that the Chamber constantly strives toward providing a congenial environment through an enabling and dynamic infrastructure, enabling many industries to nurture growth.

SOME OF THE BENEFITS THAT MEMBERS OF DCCIA ENJOY ARE:

- Credibility to their business
- Regular Updates from the Foreign Chamber of Commerce
- Opportunities for Business Networking
- Growing their business by advertising with the chamber
- Advisory Services in various fields relating to setting up and operation of Units
- Increase their visibility in the business community
- Create positive perception among their customers and associates when they are identified as a member of a reputed chamber of commerce like DCCIA
- Help and assistance in International Business such as getting Foreign Trade Inquires & opportunities for interaction with overseas business delegations
- Training/Development Programs for employees of members as well as various Seminar/ discussions for a better understanding of Government policies in various fields relating to business
- Assistance in diverse fields such as HR, EHS, Foreign Trade, GST, Customs, IT & Education for related issues through sub Committees of the Chamber. Also, take up their grievances and suggestions in the field of GST and Customs as the Chamber is the member of "GST Grievance Council - Pune Zone" & "Permanent Trade Facilitation Committee - Customs" and "Regional Advisory Committee of Chief Commissioner GST- Pune

Milton Plastics Ltd, at the invitation of its Director, Yogesh Vaghani and VL Malu of Hitech Plast Containers India Ltd. The idea was to form a common platform for the industries located on Pune-Nagar Road, to address the problem faced by them. The response was overwhelming with 45 out of 55 invitees responding to the idea. This was the foundation day for 'Nagar Road Industries Association'. There was no looking back for Nagar Road Industries Association. 'NRIA', as it was then known as if transformed into a Body Corporate under the name 'Nagar Road Chamber of Commerce, Industries & Agriculture' (NRICCA). The membership grew rapidly. Initially, the membership of NRICCA was restricted to industries located in Pune - Nagar Road belt i.e Sanaswadi, Shikrapur, Koregaon Bhima, Ranjangaon MIDC & Industries, etc. Many large industries located in the newly formed MIDC at Ranjangaon quickly became members. In order to break the regional mold and open membership to industries located in different parts of Pune and

Maharashtra, the Chamber was renamed as Deccan Chamber of Commerce Industries and Agriculture Pune (DCCIA Pune for Short) and has been operating as such since April 2009.

Over the last two decades, the Chamber has been felicitating eminent personalities for their valuable contribution to society by instituting a Lifetime Achievement Award along with Awards of Excellence in the areas of Social Service, Public Service, Best Industrialist. In order to promote & recognize 'Best HR Practices' and Best Safety Practices amongst its members, the Chamber has also instituted an award in both these categories. The idea behind giving these awards is not only to recognize and present role models to society but also to motivate others to excel. These annual award functions have been graced by some of the very prominent personalities and dignitaries of India, either as Awardees or as Chief Guest.

One of the main objectives of DCCIA is to promote cooperation between member industries and bring them on a common platform. The intention is to address not only the concerns already present in the industrial area but also to involve the region's several smaller enterprises and manufacturers. This calls for regular interaction between the members and a strong network amongst them which is facilitated in a sustainable manner by the Chamber. The Chamber firmly believes in building efforts toward enabling dynamic infrastructure capable of evolving with changing times and requirements.

HISTORY OF DCCIA

In the year 1994, on the 6th of June, a group of industrialists, owning units on Pune-Nagar road, assembled over high tea at

Meet the man of mettle - Rathin Sinha

With more than 30 years of rich, hands-on experience in varied industries across India, Rathin Sinha steers DCCIA onwards with keen business acumen and foresight, placing the highest priority on ethical business principles and safe practices. A visionary, and the inspiration behind the Chamber's success, he has the ability to create opportunities and the determination to ensure that his vision come to fruition. He is the founder member of the Deccan Chamber of Commerce, Industry, and Agriculture and has served as Hon. Secretary of the Chamber for many years now.

Alumni of the prestigious IIT Bombay, Sinha started his career as an entrepreneur, setting up a Press Shop named M/s Precision Pressing Manufactures and a Tool Room named M/s Pioneer Tool & Die Company in Bhosari Industrial Area, Pune in 1976. These companies are now major OEM suppliers to Bajaj and TVS group etc. Presently he is the Managing Director of M/s San Stamping Pvt. Ltd., which specializes in the manufacturing of spun parts from sheet metal for various applications such as centrifugal separators, projectiles, liners, domes, etc. made from diverse materials such as stainless steel, copper, aluminum, mild steel, etc. The company is also involved in critical projects of the Defense Sector for developing import substitutes. Sinha is also the founding Director of Vastav Strategic Solutions LLP which provides advisory services to corporates in Strategic Planning, Legal, Financial, Operational, and IT-related areas for manufacturing firms, especially in the MSME sector.

Apart from being an entrepreneur, Sinha is actively involved in social service, and was a member of Poona Round Table 65 for several years, twice as its President. He is also associated with several CSR activities as a member and Past President of Rotary Club Pune Downtown such as providing free prosthetic

hands to victims of accidents who have lost a limb, providing oxygen concentrators to Covid patients free of cost, etc. Considered one of the leading authorities in Pune and the entire state of Maharashtra, he has won and continues to win several awards and accolades.

Rathin Sinha, Chairman, DCCIA

'Hold each other's hands to grow together' is the mantra for Hari P Srivastava

A leader perseveres, usually through a wide variety of challenges, uncertainties, personal shortcomings, and setbacks, and has a big vision, which goes beyond the current businesses. Given this hypothesis, Hari P Srivastava's vision, sharp intellect, and deep insight have been great assets to the industry and have contributed to the unparalleled pace of Deccan Chamber of Commerce, Industries and Agriculture Ltd (DCCIA). He has been a guiding light behind building and developing DCCIA, with an objective to nurture competence, cooperation, safe working environment, and help industries in problem-solving in the industrial belt of Pune.

Srivastava is the founder Director and the Vice Chairman of DCCIA and comes with over 3 decades of corporate experience in senior positions in the verticals of HR and Commercial in India and overseas. Prior to moving to the corporate sector, he had a short stint with the technical Cadre of the Indian Air Force. He also had a brief tenure in the Bank of Baroda as Specialist Officer.

ORGANIZATION BUILDER & CORPORATE LEADER INSPIRING MILLENNIALS

Srivastava is also a Director at Trident International Pvt Ltd, a reputed company and government-recognized Export House engaged in manufacturing and exporting Traxter Brand Solid Industrial Tyres, Wheels and Tracks besides being a mentor and advisor to many other companies. Academically, Srivastava is an MBA, a Law graduate, and a Mechanical Engineer. He has traveled widely & extensively to European, American, African, and Asia-Pacific destinations and has the unique experience of setting up factories in South and West Africa both.

Srivastava is the past Chairman of Export Promotion Council for SEZ and EOUs (WR) under the Ministry of Commerce &

Industry, and currently represents DCCIA as an active member of Permanent Trade Facilitation Committee - Pune Customs, GST Grievance Redressal Committee & Regional Advisory Committee - Chief Commissioner of Central GST & Customs Pune Zone. He has been conferred with numerous prestigious awards for his relentless efforts and contribution to the industry, including the Achievers Award by Air Force Association-Western region, Pune.

H. P Srivastava, Vice-Chairman, DCCIA

Dr. Prakash Dhoka: Recipient of DCCIA Lifetime Achievement Award 2022

Dr. Prakash Dhoka received DCCIA Lifetime Achievement Award 2022

For the business visionary, Dr. Prakash Dhoka, his ability to turn a question into an answer sets him apart. In 1974, he established Industrial Metal Powders (India) Pvt. Ltd, currently located at Koregoan Bhima, Tal. Shirur, Dist. Pune. Under his aegis, the IMP group conducts business with the highest moral standards, offering only the finest products at competitive prices to its consumers. As a successful businessman, he has pioneered several ventures, focused on international business, diversified business portfolios, and implemented best-in-class manufacturing practices to make Industrial Metal Powders (India) Pvt. Ltd, a truly global company. His far-sighted vision and astute leadership have not only contributed to the success of

Industrial Metal Powders (India) Pvt. Ltd, a truly global company but also contributed to the growth and development of major industry sectors.

He proactively participates in driving serious and meaningful charitable activities, for needy members of society while religiously and regularly making way for following his hobbies and doing what his heart desires. His lofty ideals of equanimity, amity, fidelity, liberation, and modest efforts, have enabled him to devote his life in serving humanity. A simple, spirited, and inspirational vision can at times provide a focal point for developing strategies to achieve a better future. True leaders like Dr. Prakash Dhoka set aspirational direction and have an intense vision and foresight to master the art of

doing business, especially in a country like India.

Dr. Prakash, served as the former Chairman of the Deccan Chamber of Commerce Industries & Agriculture, Pune for 8 years and led several initiatives for the benefit of the members. It is under his personal guidance, that today the Zilla Parishad School in Wada Pumar Vasan Village, has transformed and raised the level of education. He has been associated with this school since 2007, and have contributed immensely to its development. He also runs a school for the deaf and dumb students, called Chandraprakash Foundation Karnabhadhir Vidyalyaya, Perne Phata Dist, Pune.

Dr. Prakash has also been instrumen-

tal in building a residential school in Wajewadi Dist, Pune for mentally challenged children which has been declared one of the best schools of its kind in Maharashtra complying with all norms for special children. He also serves as the Vice President of Vaidyakiya Seva Sanshodhan Pratishthan at Balasaheb Devras Polyclinic and Diagnostic Center, where he is actively involved in starting a 400-bed multispecialty hospital for underprivileged section of society. He believes in leading a simple, blissful, and virtuous life- one devoid of delusion, attachment, and possessiveness. For all his remarkable achievements, the Executive Committee Chamber has conferred upon him the prestigious DCCIA Life Time Achievement Award.

EXECUTIVE COMMITTEE DCCIA, PUNE

A RUNDOWN OF ITS ORGANIZATIONAL STRUCTURE

The Deccan Chamber of Commerce Industries & Agriculture, Pune constantly looks for ways to stimulate growth and improve its leadership structure and is composed of senior leaders and industry stalwarts who steer it toward a sustainable future. The Executive

Committee at the Chamber has the ultimate responsibility and authority for providing strategic and operational leadership to the organization, setting the tone of how issues are dealt with, and assessing the Indian and global markets for trends.

PROMINENT EXECUTIVE COMMITTEE MEMBERS

Vasudev Malu

Vasudev Malu is a Founder Member and Director of DCCIA, Pune, and is currently serving as the Secretary of the Chamber. He is also the Executive Vice President of The Supreme Industries Ltd, one of the largest plastics products manufacturing companies in India having 25 Plants geographically located all across the country with an annual turnover of over Rs 6,500 Crores. Malu also heads the Operations of some of the major Injection Moulding Plants of the company, constituting additional Rs. 450 Cr. As Honorary Secretary, he provides administrative support to various activities of the Chamber and the functioning of the board.

With over 4 decades of rich industrial experience in various fields like Manufacturing, Supply Chain Management, Business Development, Projects, Industrial Engineering, HR, Marketing, General Management, etc. in reputed companies like VIP Industries Limited, Asian Paints Limited, and Nilkamal Industries Ltd, he has also worked overseas for 2 years for an Indian Company as its CEO of Sri Lanka Operations. He has been actively associated with various CSR activities of the Chamber as well as with other Social Groups for the last several years.

Sunil K Gupta

Sunil K Gupta currently serves as a member of the Executive Committee and as the Treasurer of DCCIA, Pune. He is the President and Managing Director, KION India Pvt Ltd, one of the largest players in industrial trucks, related services, and supply chain solutions. Across more than 100 countries worldwide, the KION Group designs, builds, and supports logistics solutions that optimize material and information flow within factories, warehouses, and distribution centers.

With an illustrious career spanning over four decades, predominantly in the Construction & Material Handling Equipment industry, Sunil has worked for well-known Indian brands and established multinational corporations in India. He has had an insightful experience in the functional areas of operations, sales, marketing, and supply chain. He is an Electrical Engineer and alumni of INSEAD, Fontainebleau & ESMT, Berlin. Prior to joining KION, he served as the VP, Operations with Escorts Construction Equipment, Faridabad. Mr. Sunil has accumulated precious cross-functional knowledge, and is respect-

ed for his value-based leadership, professionalism, and strong ethos. Currently, he also serves as a board member of Linde Material Handling, Australia, and board member of KION South East Asia Pvt Ltd, Singapore.

Mukul Varshney

Mukul Varshney currently serves as a member of Executive Committee of DCCIA, Pune, and is the Director Corporate Affairs, Media and Communications of John Deere India - a world leader in providing advanced products, technology and services in Agriculture and Construction segments. He has been associated with the group for over 22 years now. Prior to joining John Deere, he worked with Mahindra & Mahindra for over 11 years. Alumni of the prestigious IIM, Bangalore, he brings with him over 3 decades of rich experience in Channel management, Strategic & business planning, New business models, Sales & Human resource process re-engineering, Agri-solution, and biofuel management.

Mukul is also associated in various capacities with several reputed trade bodies and Industry Associations such as USIBC, ASCI, AMCHAM, DCCIA, TMA, CII, and AICMA, and brings a rich experience with him. Recently, his recommendations on agriculture reforms during the COVID pandemic were noticed by the government at Central and State levels and the same was well-recognized and appreciated by the industry. He has a great passion for modernizing Indian agriculture and has made significant contributions in key areas like agriculture mechanization submissions, food and water security missions, postharvest residue management, agri entrepreneur, and custom hiring centers in the country.

Yogesh Vaghani

Yogesh Vaghani dons triple hats of being the Promoter of Milton Plastics Ltd., Former Chairman and Executive member of DCCIA (Deccan Chamber of Commerce Industries and Agriculture), Pune, and Chairman of Vedzen Institute, Pune. He has led one of the most successful Kaizen transformation initiatives in India, by adopting Lean Kaizen Management practices at the units of Milton Plastics Ltd Pune. He is an avid practitioner of Lean Kaizen.

He has received the concepts directly from Lean Enterprise Institute (LEI), USA, and Association for Manufacturing Excellence (AME), USA on Lean Kaizen applications. Yogesh Vaghani has also been instrumental in bringing about newer applications of Lean Kaizen such as Kaizen in Everyday Life, Lean Kaizen in Hospitals, Kaizen in Community, and Lean in Construction, etc.

Dr. Pandit Palande

Dr. Pandit Palande is a renowned educationist, having roots in Mukhai village, Pune-Nagar Industrial Belt, and is currently serving as a member of the Executive Committee, DCCIA Pune. Coming from a family of farmers, he has held various prestigious positions at some of the renowned universities of India. He founded Kasturi Shikshan Sanstha at Shikrapur, Pune in order to contribute to the education of young girls and boys from various villages close to his native village. The Sansthan runs various courses at the undergraduate and PG levels.

Pandit is the former Vice Chancellor of B.R.A. Bihar University, Muzaffarpur, Bihar; and Y.C.M. Open University, Nashik, Maharashtra. He was earlier Pro Vice Chancellor of Y.C.M. Open University, Nashik, Maharashtra. He is also a former Director of the renowned Indian Space Research Organization (ISRO), EDUSAT Project, Maharashtra, and HDFC Bank Ltd. He holds a Doctorate and M.Com from the University of Pune, and has served in various Central Committees such as UGC, NAAC, AICTE, etc. in different capacities. Currently, he is the Director, School of Commerce & Management, Y.C.M. Open University, Nashik, Maharashtra and Director, of Pune Region, Y.C.M. Open University, Nashik, Maharashtra.

DCCIA Pune sub-committee: Contributing to activities and guiding DCCIA strategies in various arenas

Getting the right team of people and leadership for any organization is extremely essential if it truly desires to achieve its full potential, and having effective sub-committees precisely helps DCCIA in that direction as these Committees are able to steer and drive the specific verticals to achieve the vision and goals of Chamber. The Executive Committee of DCCIA Pune is ably supported by 4 sub-committees to oversee all the critical areas of the organization to take it

to the next level, viz. H.R. Sub Committee, Safety, Health & Environment Sub Committee, IT & IT Related Services Sub Committee, and Finance, GST & Foreign Trade Sub Committee. The functions of these Committees are to deal with matters in their respective verticals and domains and continuously interact with professionals in these areas from member industries. DCCIA is actively considering to add more sub committees in order to further reinforce its operations.

Mukund A. Jagirdar

Mukund Jagirdar is currently the Chairman, Human Resource Sub Committee, DCCIA, and comes with a rich and varied experience of 33 years. He is presently Head of HR and Administration at Arcelor Mittal Nippon Steel India Ltd. Pune. Prior to this, he has been associated with Videocon Appliances,

Aurangabad, Legrand, Nasik, and Motherson Sumi Systems Ltd, Pune in leadership position.

Tanmoy Sinha

Tanmoy Sinha is currently the Chairman, IT & IT Related Services Sub Committee, DCCIA. An MBA from the prestigious NIU Singapore and University of Washington, Seattle USA, he is the Director, Digital Transformation at Gleeds Consulting. Earlier he was associated with IBM and Veritas Software for over a decade.

His expertise lies in the integration of business processes and IT solutions analytics & visualization, automation, and Lean thinking.

CA Biswa P. Pattanayak

CA Biswa P. Pattanayak is the Chairman, Finance, GST & Foreign Trade Sub Committee, DCCIA, and comes with an extensive experience of over 30 years in the fields of finance and accounts of manufacturing companies. He is currently the GM-Finance & Accounts

for Oriental Rubber Industries Pvt. Ltd. Pune. Prior to that, he was associated with Thermax Limited for over two decades.

Sachin Parthe

Sachin Parthe is currently the Chairman, Safety, Health & Environment Sub Committee, DCCIA, and comes with 2 decades of demonstrated experience. Sachin is currently associated with M/S Mecc Alte Ltd. for the past 5 years. His previous assignment was with Kohler Power India Pvt. Ltd. Aurangabad.

Deccan Chamber is a pioneering platform for leveraging connects with government bodies, trade commissioners and other businesses. It has ambitious plans for supporting IT companies and startups in the near future. I wish DCCIA all the best.

— Dr Deepak Shikarpur

Mentor/ Advisor - DCCIA - Sub Committee for IT & IT related services

Rotary Club of Poona Downtown has had the unique opportunity to be associated

with the Deccan Chambers of Commerce and Industry (DCCI), Pune in serving the underprivileged. This collaboration and generosity of DCCI members was particularly obvious during COVID times. We are looking forward to many more joint programs with DCCI members directed towards the well-being of and upliftment of the needy.

**— Rtn Dr Zimra R Israel
President 22-23, Rotary Club of Poona
Downtown, District 3131**

I congratulate DCCIA Pune for having completed 28 years of

being the important link between business and industry situated in this Industrial belt and other stakeholders. As advisor to DCCIA Committee, it will be my endeavour to bring substantial improvement in Traffic situation as well safe travel for thousands of employees of member companies of DCCIA.

**— Qaneez Sukhrani - Noted Civic
Activist**

SUPREME – PEOPLE WHO KNOW PLASTICS BEST

An acknowledged leader of the Indian plastics industry, The Supreme Industries Ltd. offers the most diversified portfolio of plastic products. Supreme's large portfolio includes Plastic Pipe Systems, Water Tanks, Bath Fittings, Solvents, Moulded

Industrial Moulded Products

Films and Composite LPG Cylinders. Every Supreme product is not just made to be consumed but is designed to create an impact. The diverse product portfolio

Composite LPG Cylinders

Plastic Pipe Systems

brings convenience, accessibility, affordability, and most importantly, adds value to everyday life.

Founded in 1942, Supreme Industries has been relevant with changing times and continues to be a household name

Protective Packaging Products

solely because of the core values that it upholds. Powered by a robust infrastructure and expertise, Supreme is one of India's largest plastic manufacturing

Material Handling Products

and processing company. Supreme operates through 27 pan India manufacturing plants and sells nearly 4L Metric Tons of polymer every year. In 2021-2022,

company has reported annual turnover of Rs. 8000 CR.

With its expanding manufacturing and distribution network across the nation, Supreme has exceptionally fortified its PAN India presence. Supreme has a vast network of more than 4000+ distributors across India. The company serves the customers through its 19 pan India offices.

Supreme gives utmost importance to its values like empowerment, Integrity and

Moulded Furniture

customer centricity. They aim to provide products and services which improve the quality of life and exceed customer expectations. Supreme's large portfolio is a testament of its painstaking efforts towards research and development. Every product is designed keeping in mind the customer needs and its overall impact in improving the quality of life.

Performance Packaging Films

The innovations are backed by unmatched quality and robust and environment friendly manufacturing processes. The company strives to reduce carbon emissions in its operations by increasing use of renewable energy and low-carbon fuels. As a company, they aim to foster an environment-first culture in the future as well.

Supreme has become the industry standard in the plastics industry over the years. They do nothing less than the best when it comes to creating products with the highest process and quality standards.

Recognizing and celebrating Pune's Iconic personalities at DCCIA's Annual Award 2022

A strong personality is a reflection of excellence, dexterity, and meaningful contribution- one who has fortified his/her presence in the hearts of patrons over the years. And with this thought, over the last two decades, DCCIA has been felicitating eminent personalities for their valuable contribution to society by instituting a Lifetime Achievement Award along with Awards of Excellence in the areas of Social Service, Public Service, Best Industrialist. Those who have made significant achievements in making a real difference in the lives of the people around them through their dedication and hard work in achieving the highest levels of excellence in their offerings are recognized for their relentless efforts.

These awards acknowledge the great work practices, inspirational journey, and upbeat future of esteemed personalities in and around the industrial belt of Pune, who have set a mark of excellence, in the process carving out a distinct identity for themselves. They honor the leaders who

have contributed in great measures in giving impetus to the growth of Maharashtra. All of them have contributed in large measure to the country's emergence on the global map, and are recognized for their contribution to various disciplines - industries, social contribution, human resource development and best corporate practices.

The assessment focuses on the contributions made by individuals in different categories and is adjudged by an apex body that consists of a team of expert professionals

and senior leaders who believe in making India proud in terms of becoming socially responsible and simultaneously carrying out good and innovative business practices. With the same vision and motto to follow over the years to come, the event is held annually to celebrate the efforts and dedication of individuals who come forward to serve the nation across several industries like Manufacturing, Healthcare, Education, Entrepreneurship, and Social Activism, among others.

THE AWARDEES

Sadashiv Survase

Sadashiv Survase is a shining star on the industrial horizon of Maharashtra and needs no formal introduction. Over the last two decades, he has been successful in steering Western Maharashtra Development Corporation successfully. He strongly believes that with innovation, and diversification, businesses can be expanded globally. Under his aegis, the corporation is determined to achieve its goals while adhering to the highest set of values and business ethics. He has also been behind the effective implementation of all Govt. incentive schemes, skill development, MSME development, and several problems faced by industries in Satara, Kolhapur, Solapur, and Pune districts. As a Chairman of MSEFC, in the last two years, out of total 4322 petitions received, he disposed record 3011 petitions of delayed payments to SME which is one of the highest in the country. This is a great help to MSME in Maharashtra. In addition to his bigger vision that goes into making the organization thrive, his experience in planning layout formalities is instrumental in incubating various practices that are helping the organization in achieving its goal. He possesses a strong work ethic and an innate ability to respect and deal with inevitable issues.

An entrepreneur, a corporate trainer, at a young age, Sadashiv is an inspiration to all with his achievements. He

currently serves as the Joint Director, Industries, Pune Region, Govt. of Maharashtra, and is also the Chairman, Micro & Small Enterprise Facilitations Council, Pune. Among his many coveted achievements, he has formulated Industrial development and sartorial policies, including, Industrial Policy 2019, IT & ITES Policy, State SEZ & EOU Policy, Biotech Policy 2001, State Manufacturing Policy, Agro & Food Processing Policy, State Startup Policy, Women's Entrepreneurs Policy, Micro Enterprises Policy- Chief Minister Employment Generation Program, Export promotion Policy, and Coir Policy & handicraft Development Policy.

Sadashiv is well respected and his achievements are recognized by all in the industry. His exceptional people skills, sincerity, disciplined approach, and positive energy have been instrumental in building an innovative enterprise. Thoroughly professional,

bold by nature, and extremely dynamic, he believes in staying ahead of the business curve, and not only keeping himself abreast with the current trends in the industry but also keeping a close watch on future opportunities. He has been recognized with a number of accolades over the years, he is now conferred with the prestigious DCCIA Award for Excellence- Public Service.

Late Surinder Aggarwal

Effervescent, buoyant, and charismatic are the words that describe Surinder Aggarwal, who made his legacy on his terms and brought more laurels to his conquest. This is for the first time in its history of over two decades that DCCIA is conferring an Award posthumously which is a tribute to Surinder Aggarwal, former Treasurer of DCCIA and Managing Director – Care Pack Pvt Ltd, and an inspiration for generations to come. Though on merit, he would have qualified for any other award, nothing could be more befitting than the Award in the category of Social Service which was so close to his heart.

Surinder believed in reaching out to the needy in all his endeavors with an underlying philosophy of, “If someone takes your coat you also give them your shirt”. Working in collaboration with local communities and partner organizations, he supported many social causes and realized the true potential of his passion for social participation by proactively participating and providing support to various institutes across the country. Born in Delhi in 1944, he started his career as a marine engineer, working his way up to the rank of Chief Engineer. After travelling all over the world for 13 years, he decided to settle down and started a corrugation plant called Care Pack Pvt. Ltd. in Pune. He was the founder member of Nagar Road Industries Association (NRIA) which is today known as the Deccan Chamber of Commerce Industries & Agriculture (DCCIA). He remained its treasurer right from inception till his demise in 2020. Under his visionary leadership, the Chamber undertook challenging projects and surpassed its contemporaries in a short span of time.

Surinder was an active member of the Rotary Club Pune Downtown (RCPD). Both as a member and as President of RCPD, he undertook numerous projects for the benefit of underprivileged sections of society. He built as many as 50 toilet blocks in Laxmi Nagar (Yerwada). Not only did he contribute monetarily, but he was right there with the workers digging and building. The school girls living in the area thanked Surinder uncle for enabling them to get to school in time as they had to travel far distances in the morning to use the bathroom. He also touched upon the lives of various farmers and their families in Sonori, Vanpuri and Dive villages by constructing an overhead tank, Bund on the village stream, bore well with a hand-pump, piped water supply, community TV room, and milk collection cooperative. He also organized several cataract surgery camps for the villagers.

In order to address the civic problems for the residents of Kalyani Nagar, an upcoming suburb of Pune in early nineties, he founded Kalyani Nagar Residents Association (KNRA) which took a number of initiatives under his leadership. He took various measures with Garden Superintendent, Pune to shape the Joggers Park and even set up a library. He successfully implemented the Augmentation of Waste-Water project. Further, he successfully led the campaign – 100% Voting and went door to door urging residents of Kalyani Nagar to come out and vote in every election. The campaign was hugely successful.

Surinder is survived by his wife Promil, daughter Loveena, and two grandsons Avinash and Andrew. DCCIA is proud to confer upon him posthumously DCCIA Award for Excellence – Social Service – 2022.

Shrikant Badve and Supriya Badve

Shrikant Badve's mantra for success is to have a big vision, divide it into smaller milestones and get there by taking small steps at a time. He is a visionary, and his seasoned leadership qualities, combined with his meticulous planning and strategies have given the desired shape and direction to the Badve Group of Industries, which has a pan-India presence with 30 manufacturing locations engaged in manufacturing auto components for 2-Wheelers as well as 3 and 4-Wheeler automobiles along with parts of consumer durable products and an ever-expanding global footprint. Badve is the Brand Ambassador of Magnetic Maharashtra, Make in India as the industry rep-

resentative alongside Sachin Tendulkar, Madhuri Dixit, and Shankar Mahadevan. Alumni of the prestigious DM, Ahmedabad, he is a first-generation entrepreneur with a meteoric success record in Maharashtra in the areas of component manufacturing for Automotive & White Goods

Industries. Shrikant Badve started his business in 1987 with a capital infusion of 20,000 INR (\$240), and gradually raised finances, which was a major hurdle due to the non-availability of collateral security. Shrikant Badve is married to Supriya Badve, the Executive Director of Badve Group. Born with an inherent eye for detail and an eternal compassion for humankind, Supriya, takes all joy and enthusiasm to express her thoughts in an original and appealing manner. Founder & CEO of Xara flowers & Sportsindi, she presides the TPM (Total Productive Maintenance)

Corporate Steering Committee, HR, Finance, Supply Chain Management, CSR Chairperson of the entire Badve Group. Employment Enhancement program and 1 lakh tree plantation are major drives. Badve Group is the recipient of many awards recognizing her efforts and successes in the business including Japan institute of plant management (JIPM) awards at Kyoto Japan, four National Awards from the Government of India through the Ministry of Industry for Entrepreneurship, Quality Research and Development. These awards have been conferred upon them by the President and the Prime Minister of India. What started as a small business with less than 5 work-

ers, has today become a leading automotive manufacturing brand in India with an employee strength of over 15,000 and a group turn-over of over INR 5,000 Crore (\$700 million) which is testimony to their efforts and hard work. In addition to their bigger vision that goes into making the organization thrive, their experience in planning layout formalities is instrumental in incubating various practices that are helping the group achieve its goal.

DCCIA has conferred upon them the DCCIA Award for excellence-Best Industrialist for their outstanding contribution, dynamic leadership, astute vision, and hard work.

KION India: Expanding the horizon of Intralogistics

KION India Factory 2.0 : One of India's largest and most modern material handling equipment manufacturing facility

The global trend in the MHE (Material handling equipment) industry is pacing toward increased efficiency, enhanced productivity, maximized safety, and minimized downtime. With companies working several shifts to ensure efficient warehousing and the material supply to different industry segments, the requirement for entry-level MHE, electric pallet trucks, electric stackers, and electric forklifts have shown a drastic increase in the last 5 years. KION Group is one of the world

leaders in industrial trucks and supply chain solutions having a global footprint across more than 100 countries. KION Group is a truly global player with a well-balanced portfolio, global manufacturing plant set-up, and strong sales & service network across the globe. KION India, a wholly subsidiary of KION Group AG, is the market leader in the Indian MHE industry offering customized & automated MHE solutions through its multi-brand offering under the brands OM, Linde, Baoli and Dematic.

KION India's factory 2.0 at Pune is one of India's largest and most modern material handling equipment manufacturing facilities which is well-prepared to cater to the long-term projected strong market growth. Factory 2.0 has dedicated assembly lines for IC, Electric, and WHE products, a modern paint shop, advanced quality testing facilities, and an in-house R&D team, connected with the worldwide R&D centres of KION Group to exchange best practices in product advancements. With 125+ customer touchpoints in India, KION India is committed to being closer to customers and offering the best MHE solutions and services.

The company has a versatile range of complete MHE solutions having more than 400 product variants specifically categorized for different applications offering economical yet robust MHE Solutions and customer segments. OM is its indigenous brand offering economical, yet robust technology MHE solutions manufactured under the "Make in India" initiative while the Linde brand offers high-

**Sunil K Gupta,
President**

end technology products having high performance, technical perfection, higher quality standard, and innovative ergonomics. KION India's multi-brand offering includes IC fork lifts ranging from 1.5T to 20T; E forklifts from 1.5T to 18T; stackers with mast heights up to 6.5 m; battery-operated pallet trucks; and tow trucks up to 25 T& electric reach trucks with mast height up to 15m, Order picker, VNA, AGV & AMR. Be it an existing system or a new project, the goal of MHE solutions is to maximize system efficiency.

KION India has recently introduced Linde Electric Counter Balanced trucks, which deliver high efficiency and performance along with the option of a Li-Ion battery solution. It has also launched OM Plus+++ Series counterbalance forklifts (IC & E segment), in 2021, loaded with features that ensure better performance, serviceability, strength, safety, and life.

With a focus on environment and sustainability, the MHE market is witnessing a demand for cleaner and greener technology products. Future warehouses are likely to be based on non-pollutant energy-efficient material handling equipment, such as battery-operated electric forklifts; pallet trucks & stackers. With this futuristic approach, KION India's R&D team is continuously engaged in stepping up its product offering, for delivering these market needs. After a successful launch of CEV Stage IV competent IC counterbalance trucks, it is now upgrading the same with CEV Stage V - new pollution norms.

"As the market leader, KION India is always setting newer benchmarks for the smarter MHE industry with its expertise and comprehensive understanding of intralogistics. We are a customer-centric organization catering to Indian customers with a solution that optimizes efficiency and safety, bringing flexible, secure, and fast-to-implement solutions. As a one-stop solution provider of intralogistics MHE, our objective is to keep evolving as the most preferred and trusted MHE solution provider," affirms Sunil K. Gupta President, KION India.

India Workplace Equality Index 2022

John Deere India Pvt Ltd delivering tomorrow's contemporary solutions today

In addition to being one of the top markets for manufacturers of agricultural and construction equipment, India is also the land where several global firms have established their manufacturing facilities and export hubs because of the country's low cost of labour. John Deere, with its higher purpose, 'We run so life can leap forward' has been a leader in modernization of agricultural practices in several regions of the world. The company understands the aspirations of the small holder farmers and the fact they are looking up to modern solutions as

noticeable contributions in Indian agriculture by bringing advanced technology products and solutions. It offers numerous tractor variants ranging from 28Hp to 75Hp for domestic markets while the exports are for higher HP tractors to more than 110+ countries from India. The company has been a recipient of the "Export Excellence" award for the past 16 years.

John Deere engages with several suppliers for its manufacturing in India and John Deere facilities across the globe. It has pioneered in developing a robust supply chain that caters to manufacturing in India and to several manufacturing facilities across the world. The tractors made in India are completely localized, offering high quality, reliability, durability, and performance standards. There are very specific components/ aggregates imported for overseas markets, which may be specific to a country or an overseas customer need, which are

retrofitted for exports.

John Deere has been the leader in introducing technologically advanced farm machinery to substantially improve farm productivity and income levels. This has steered technology-driven mechanization focus for the Indian farming community. Technologies such as Power Steering, Oil immersed disc brakes, dual clutch, planetary reductions, and synchro-shift transmissions are some examples that have brought convenience and enhanced machine productive hours. John Deere plays a pivotal role in bringing smart technologies and global standards ensuring product safety and sustainable agriculture practices. Over the years, the introduction of technologies such as telematics, front PTO, power reverser, and the wet clutch has come in handy in reducing the cost of operations significantly. Besides, the company also prioritizes and supports the inclusion of aspiring women farmers in the journey of farm mechanization as needed in the country.

John Deere intends to learn, collaborate, and meaningfully engage with industry and value partners for the modernization of agriculture practices, and skill development, thereby creating more Ag Entrepreneurship and Rural Employment opportunities at local levels. It turns raw materials into machines that advance a chain of livelihoods- from supplier to dealer; from customers to their consumers, and from the company to its communities.

against conventional agricultural practices. Its constant quest for finding solutions that align with its values of integrity, honesty, and accountability, and focus on consistently optimizing efficiency at its manufacturing facilities, ensure efficiency for all its operations.

John Deere has interest and relevant experience in helping transform enterprising farmers from subsistence levels to a level of Agri-business entrepreneurs. Over the years, it has responsibly and cautiously developed an ecosystem for incubating future technologies for sustainable adoption. The company has established its firm presence in India for the past 25 years, making

INDUSTRIAL METAL POWDERS PRODUCING SUPERIOR AND HIGH-PURITY IRON THAT IS SECOND TO NONE

Electrolytic iron powder is a high-purity iron that is produced by complex refining processes wherein key parameters are controlled to obtain the desired quality. The powder finds application across several industrial processes like fortification, manufacturing iron supplements, chemical intermediates development, water remediation, aerospace, and diamond cutting tools. Backed by years of innovative experiences and front-line advances, Industrial Metal Powders India Pvt Ltd (IMP) delivers highly immaculate electrolytic iron powder and has come a long way through dedication to serve industries with superior quality and high-purity electrolytic iron.

Established in 1974, IMP is a leading producer of electrolytic and reduced iron powders, iron flakes, atomised iron, and pre-alloyed powders. The company currently exports to over 33 countries across the globe and supplies products for applications such as food fortification, pharma, diamond-cutting tools, chemicals, and aerospace. IMP is certified with ISO 9001, 14001, & 45001, and is the only iron powder company in the world with FSSC 22000 certification. Its world-class production plant at Koregaon Bhima, Pune, stands as a tall testimony of its efforts and capabilities to deliver the best of products. Its state-of-the-art lab has sophisticated testing equipment to ensure unmatched quality.

“The purest form of iron, also called electrolytic iron, is formed as a result of the chemical electrolysis of a solution that comprises iron compounds. This refined iron serves multiple industrial applications because of its purity. We, at IMP, make available electrolytic iron and reduced iron in different mesh sizes and specifications to benefit clients across several industrial sectors. We process and customize electrolytic iron pow-

latest technology and sophisticated equipment in the facility, 3D Incredible’s high-quality customized implants are a revolutionary product that are helping toward a quicker rehabilitation period and aiding in improving the aesthetics of the patient. The company also works with various engineering companies for automotive, aerospace, dies & moulds, and defence requirements and has also collaborated with ISRO and the Indian Ministry of Defence.

“With complete know-how of the highly complex and intricate technology pertaining to the production of Electrolytic Iron powder; Reduced Iron powder; Pre-alloyed Powders and Electrolytic Iron Flakes, our esteemed clients are always assured about the quality, purity, and delivery schedule. IMP strives to be a green company and actively works to conserve the environment. It has set up a large

solar plant, rainwater harvesting systems, and a sophisticated effluent treatment plant to help eliminate water and soil pollution and reduce dependency on non-renewable fuels,” adds director Mahesh Dhoka.

IMP has been awarded by the EEPC as a major exporter for the past 10 years in its category and is constantly expanding its production based on extensive R&D for new applications and industries. With decades of experience, achievements, and a hard-working team, you can rest assured of a hassle-free and synergetic relationship in working with IMP.

der in small to bulk quantities to fulfil all kinds of requirements of our clients,” says Prakash Dhoka, Managing Director, IMP.

Incredible AM Private Limited (3D Incredible) is a subsidiary of IMP, established in 2017 to cater to the field of Metal 3D printing. It's touted to be India's largest 3D medical company manufacturing patient-specific implants, models, cutting guides, and jigs. It has completed upwards of 1500 surgeries, has a network of more than 30 distributors, and has worked with about 500 surgeons across India. Manufactured with the

contribution to the cause of Industry. The DCCIA Award for Excellence – Best Industrialist was jointly conferred upon Shrikant and Supriya Badve, in recognition of their undying determination, leadership, and compassion in creating and nurturing Badve Engineering group. The Award for Excellence-Best HR Practices was bagged by M/S KION India Pvt. Ltd while FMCG major M/S ITC Limited won DCCIA Pune Award for Excellence- Best Safety Practices.

Rohit Mangain and Santosh Uttam Kadu while receiving the award for Best Safety Practices

Speaking on the occasion, Shri Koshiyari congratulated the Awardees, and complemented the Chamber for recognizing the good work done by the government officials as well. He expressed optimism that India could soon become the third-largest economy in the world. He stressed that people in the government are working relentlessly to provide more services to the industrialists, and cited examples of huge infrastructure development work coming up in the country, like roads, highways, and airports. He also gave a word of advice to corporate to be fair in all their dealings.

In their joint Address, Rathin Sinha - Chairman and HP
