Subject: - BUSINESS OPPORTUNITIES IN NEW SOUTH WALES (AUSTRALIA)

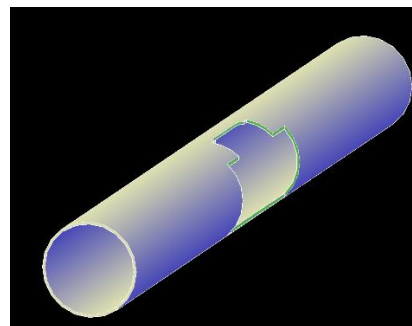

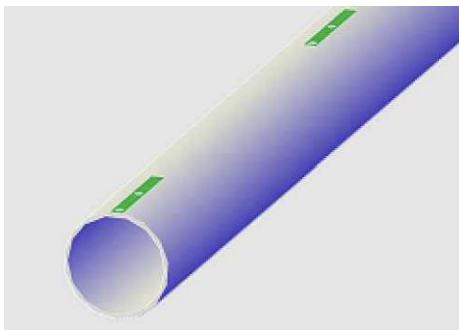

Dear Members,

DCCIA has been approached by “**Investment NSW**” the economic development agency of the State Government of New South Wales (NSW), Australia in India for following business opportunities for Indian Companies.

Details of Enquiries received

1) They need a company with a large format CNC or NC mill (dimension 3650mm long) to assist with machining some flat sections, and drilling some small holes on the top of pieces of 76mm diameter steel pipe. Below is an indicative image of the end of one such part (the green areas are the parts that need to be milled). There would be 600 of these to make, each is around 3600mm long.

2) They are searching for a company with a 'tube laser'. This is a laser cutting machine able to cut profiles on pipes and tubes. They have a couple of components that need this. One is cut from 139mm pipe, the other is cut from 100mm x 50mm RHS section steel. Indicative image also below.

Steel plates and general fabrication:

3) They are interested in a company able to do standard laser or plasma cutting of flat steel plates, of thickness between 3mm and 16mm. A range of shapes and geometries apply. Some parts need simple assembly with welds. All parts will need to be hot-dip galvanized after assembly.

4) They are looking to source a range of standard and high-tensile bolts for the project. We would welcome your recommendation for a supplier. There are around 2 MT of bolts required.

5) They are looking for an Indian supplier able to provide ground anchor cable systems. A product similar to that provided by [HulkEarthAnchors](#), [DUCKBILL](#) or others. The load rating should be 50kN or higher.

Interested members are requested to contact DCCIA office at 8956918544/45 or send e mail at gm@dcciapune.org, office@dcciapune.org & adminofficer@dcciapune.org

Thanks & Regards
